

Environmental Policy

Tembé DIY & Building Products Limited is a British company that specialises in creation and supply of professional products for trade and DIY users.

We recognise that our activities have an impact on the environment in terms of the use of raw materials, emissions to air and water, and waste generation. We therefore seek to minimise this as far as is reasonably practicable.

Tembé is committed to:

- Continual improvement in its environmental performance.
- Preventing pollution.
- Compliance with all environmental legislation, regulations and codes of practice relevant to the industry sector in which it operates.

It is the policy of Temb e to:

- Make efficient use of natural resources by conserving energy and water, minimising waste, and recycling where possible.
- Meet its duty of care requirements in relation to waste by ensuring the safe keeping, transportation and subsequent recovery or disposal of waste.
- Use recycled construction materials whenever these can be commercially justified.
- Keep transport use to a minimum and regularly service vehicles to maintain their efficiency.
- Work with suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.

Temb e will review this policy on an annual basis, taking account of any changes within legislation and our organisation, and other factors.

We will communicate this policy to all our employees and ensure that they are given appropriate training to raise awareness of environmental issues.

Temb e will make this policy available when requested to interested parties including members of the public.

Guy Malam
Managing Director
